## EDUCATION

Expected in May 2026
B. Tech: Computer Science and Engineering
**Kalinga Institute of Industrial Technology**, Bhubaneswar

## CERTIFICATIONS

- Licensed Data Analyst
- Licensed Digital Transformation with Google cloud
- Licensed Oracle certified Foundations Associate
- Cloud Security Engineer by Google cloud
- Generative AI Fundamentals by Google cloud skills Boost
- Introduction to Large Language Models

## SKILLS

Proficient in **Python, Java, and C++**: Hands-on experience in developing software solutions and completing various academic projects.

**Full stack Web Development**: Developed and deployed several web applications using **HTML, CSS, and JavaScript**, showcasing a solid understanding of front-end development and user interface design.

- **Problem-Solving**: Regularly engaged in competitive programming and algorithm challenges, optimizing efficiency solutions.

- **Database Management**: Designed and managed SQL and MongoDB databases for academic projects, including schema design and data manipulation.

- **Team Collaboration**: Worked effectively in team environments on multiple group projects, demonstrating strong communication and coordination skills to achieve project goals.

- Communication Skills: Developed strong written and verbal communication skills, essential for presenting projects.

## PROJECTS

**Projects**: Led a team in developing a web-based project(**sustainable life through technology**) using HTML, CSS, JavaScript, and SQL for organizing scrap workers for empowering sustainable development.

**Hackathon Participation**: Participated in Blockbash hackathon organized by Hackerearth, successfully developing a prototype for organizing scrap workers for empowering sustainable development.

**Open Source Contributions**: Contributed to several open-source projects on GitHub such as **Smart India Hackathon, Amazon Hack on, Hactoberfest2023**, improving documentation and adding features, and gaining experience in collaborative software development.

## EXPERIENCE

June 2024 - July 2024
**Web Developer**, *Oasis Infobyte*, Remote

- Developed and maintained web applications using HTML, CSS, and JavaScript.

- Collaborated with design and development teams to create user-friendly interfaces and enhance user experience.

- Assisted in troubleshooting, debugging, and optimizing web applications for performance and scalability.

- Participated in code reviews and contributed to improving code quality and best practices.
- Gained hands-on experience with version control systems like Git.
- Worked on integrating APIs and ensuring seamless data flow between front-end and back-end systems.
- Conducted testing and validation to ensure web applications met business and technical requirements.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3

## SUMMARY

Innovative professional with proven track record of developing solutions. Adept in multiple programming languages and offers great task prioritization and organizational skills. Proven ability to troubleshoot complex programming problems.
